TOUKO PAKARINEN

Student, Web-developer, Enthusiastic learner

I am a 2nd year Computer Science student at the University of Eastern Finland. Currently my goal is to become a capable fullstack-developer. I am constantly learning new things, and improving my skills in modern technologies through my studies or by creating fun projects on my own. Besides studying and programming i like to play the guitar, train calisthenics and play videogames.

As an employee i am trustworthy and focused. I try to listen, learn and contribute every day to the best of my ability. I am also able to take responsibility and want to use the skills i have acquired.
